4. Incorporate nature into your design

Consider using natural materials in your design, such as stone pathways or wooden decking, to create a seamless transition between your outdoor space and its surroundings.

5. Design multiple living spaces

Define areas for dining, lounging and entertaining that mirror the functionality of indoor spaces while maintaining visual cohesion with consistent decorative elements.

6. Layer with texture and colour

Add depth and personality to your outdoor space with layers of texture and pops of colour from rugs, throw pillows, and other decorative accents.

7. Light with purpose

Create a warm atmosphere and highlight focal points with a thoughtful combination of ambient, task and accent lighting.

A woman with her hair in a ponytail, wearing a white jacket, sits on a modern outdoor sofa with grey cushions and a brown cylindrical pillow. She is looking out over a lush green landscape with a large white bridge in the background. The terrace is furnished with a matching outdoor chair, a coffee table, and a side table with fruit. The scene is set on a concrete and wood deck overlooking a city with red-tiled roofs and a large bridge.

It is time to experience the softness and comfort of Laskasas' First Outdoor Collection and take outdoor living to the next level.
